## Christmas 2025

Editor: Joanna Franks

Hello and welcome to the 2025 Christmas **New Product Guide**.

The festive countdown starts here, with our biggest range of gifts ever! Our Christmas shop is packed with accessible products – including our inclusive Christmas cards, new tactile Christmas stickers, beauty advent calendars with braille numbers, and the new Urban Xplorer cane – and also with a selection of charity Christmas cards, gift wrap, homeware, stationery, beauty and children's gifts.

Every gift bought from us helps blind and partially sighted people, because every penny of profit is ploughed into RNIB's work ensuring everyone with

sight loss can live the life they want to lead, without limits.

So, when you buy a gift from us, you can know that all our profits go into RNIB services. There are no shareholders to answer to, just blind and partially sighted people benefitting from the money we raise – whether they are one of the 60,000 patients seen by ECLOs in the past year, or one of the 200,000 calls to our Helpline, or they're using our employment service, the RNIB Library, Talk and Support, and so much more.

Happy shopping!

# Send season's greetings

Whether you're despatching the full round robin or you prefer a minimalist approach to Christmas card writing, now's the time to stock up for the coming festive season.

This year we've got a wider choice of ways to send seasonal greetings than ever.

## Inclusive Christmas cards (pack of 10)

We're ringing the changes this festive season – all our inclusive Christmas cards now come in mixed packs, plus we have brand new, colour-in, tactile Christmas cards, and Welsh cards as well.

We've refreshed the colours on some existing designs and added loads of new ones to give you more choice.

Each pack of 10 cards (and envelopes) contains five designs, and each card features a tactile, festive image, giant print and braille greeting, and image description in large print and braille.

These cards have been produced to both Clear Print and See It Right guidelines. The greeting ('Season's

Greetings' or 'Cyafwrchion y Tymor') is in 24pt (giant print) and the image description is in 20pt (large print).

All our inclusive Christmas cards can be sent via the 'Articles for the Blind' scheme (as well as standard post), bringing down the cost of postage significantly.

Our cards are matt finished, with no foil or glitter, and wrapped with a paper band, to reduce environmental impact.

Price per pack: **£5.00** **£6.00**

### **Inclusive mixed pack Christmas Cards (XC66)**

Five of our most popular designs. Two each of: Reindeer, Robin, Snowman, Christmas tree, and Snowflake.

### **Inclusive Christmas character cards mixed pack (XC73, XC73-W)**

Five festive characters – two of each design: Reindeer, Robin, Elf, Snowman, Father Christmas and reindeer. Available with in both English (XC73) and Welsh (XC73-W).

### **Inclusive Christmas essentials mixed pack (XC74)**

Five 'essential' festive designs – two of each design: Christmas tree, Sleigh, Stocking, Snowflake and Christmas puppy.

### Inclusive religious Christmas cards mixed pack (XC75, XC75-W)

Five religious designs – two of each design: Dove, Stars, Angel, Nativity, Three wise men. Available with in both English (XC75) and Welsh (XC75-W).

### Colour in your own tactile Christmas cards (XC87)

Each pack contains two each of: Angel, Elf, Reindeer, Father Christmas and reindeer, Snowman. The black outlines of the images are raised and tactile to make them easy to colour in.

### Articles for the Blind labels

Self-adhesive labels for Royal Mail's "Articles for the Blind" scheme, which enables blind and partially sighted people to send certain items through the post free of charge.

Each label includes a space to write your return address, as well the recipient's name and address.

<b>DP11-B</b>	<b>Pack of 20 labels</b>	<b>£2.25</b>	<b>£2.70</b>
<b>DP11</b>	<b>Pack of 200 labels</b>	<b>£7.50</b>	<b>£9.00</b>

## Send an audio message this Christmas

This customisable, recordable greetings card is a perfect way to send a personalised audio message for Christmas, birthdays, and any other occasion you can think of.

Record your message (up to 40 seconds) and decorate the plain, white A5 card to suit the occasion, with a photo, drawing or other image. (You could add a tactile image created using embossing film or Tacti-Mark, for example.)

The recording will play as soon as the card is opened and can be kept forever (the button cell batteries can be replaced when necessary). You can also re-record your message as many times as you like to get it just right.

## Charity cards (pack of 10)

Pick up a pack or three of our charity Christmas cards and support the work we do at RNIB to make every day better for those affected by sight loss. Choose from mixed packs or single design.

Please note, these are not tactile cards, however the greeting inside is printed in a clear font. All cards measure 15 × 15cm and are supplied with envelopes.

These cards are made in the UK, printed with vegetable inks and are completely recyclable (including the packaging).

**Price per pack: £5.00**

### **Robin (XC76)**

This pale green card has attractive green, red and cream festive foliage around its edges – including rose hips, mistletoe, and fir – and a very round robin with hints of yellow, blue and purple in addition to his red breast, making him even more colourful.

### **Christmas tree (XC77)**

This dark blue card has a fir tree in the wild decked with baubles, lights and the words 'Merry Christmas' beneath a starry night sky with a crescent moon. Green and silver fir trees stand behind it, while green, white and gold foliage peeks up in the foreground.

### **Dogs around the tree (XC78)**

A collie, golden retriever, dalmatian, and spaniel sit on snow-covered ground with presents nearby, watching reindeer pull Father Christmas's sleigh in front of a full moon. The sky is teal-coloured and full of falling snow; in the distance is a Christmas tree covered with glowing lights and a village church and houses.

### **Four Candles (XC79)**

A painting of four gardening forks stuck into snowy ground, each fork has a lit candle balanced on its handle. Behind the four fork candles are fir trees and a light blue sky with a full moon. The candles have festive foliage decorating their bases, and a robin perches on the tines of one of the forks. In a red script typeface, 'Four candles...' is written over the snow.

### **Nutcracker (XC80)**

A painting of three Nutcracker soldiers on a snowy night. The design of the card suggests a colourful bauble in front of brown wrapping paper. Within the festive bauble, stand the three colourful Nutcracker soldiers with fancy hats, black moustaches and long white beards. Beneath their feet are the words 'Merry Christmas'.

### **Merry and Bright – mixed pack (XC81)**

Two festive foliage designs. One features a colourful festive wreath on a deep red background. Four robins perch on the wreath, and in the centre in script-like typeface are the words 'Happy Christmas'. The second design features a wilder selection of foliage appearing to grow from the edges of the card towards the centre. The pale green background complements and contrasts with red rosehips, dark grey yew fronds and red yew berries, mistletoe, and cow parsley seed heads. Over the top in a hand-drawn style typeface are the words 'Happy Christmas'.

### **Animal Christmas cards – mixed pack (XC84)**

Two festive animal designs. One features a painted Highland cow with festive foliage wrapped around its horns and a cowbell hung on red cord around its neck against a watercolour teal background. Snow is falling and 'Happy Christmas' is printed at the top of the card. The second design features a hare painted in the same style, sitting among natural green, red and white foliage and berries, in front of a watercolour teal background, with snow falling. 'Season's Greetings' is printed in a swirly typeface in the top corner of the card.

### **Religious Christmas cards – mixed pack (XC82)**

Two festive religious designs. One is a colourful print-style design featuring the three wise men riding their camels past brightly coloured buildings with domes and minarets, towards Mary, Joseph and the baby Jesus, under a large five-pointed star. Script-like text beneath the image reads 'Following Yonder Star'. The second design features the word 'Joy' in a large, swirly typeface with 'to the world' in smaller text underneath. In and around the loop of the letter 'Y' are colourful buildings with minarets and Mary and Joseph in the stable, holding the baby Jesus.

### **Dogs Christmas ready – mixed pack (XC83)**

Two festive doggy designs. One features a golden retriever waiting patiently outside an elegant townhouse with a bright red front door. A small potted tree has been decorated with red baubles that match the dog's neckerchief. A mistletoe wreath hangs on the front door, and a red bicycle is propped up nearby with a small grey terrier sitting in its wicker basket. On the snow-covered ground is a small pile of wrapped gifts. The second design features a small brown and white terrier 'driving' an old-style green Land Rover through a snowy landscape. The back of the car is filled with colourfully wrapped gifts, and on top of the roof lies a Christmas tree, ready for decorating.

This super-durable, robust, adjustable street cane is designed to keep you moving through the urban jungle, with all its trip hazards and obstacles. Available in four sizes – small, medium, large and extra-large – this featherlight cane from Awarewolf Gear is designed for children and adults.

Made of durable aerospace grade aluminium with innovative, super-strong metal sleeve joints, the Urban Xplorer is strong and durable, but also lightweight, and is designed to deliver confidence, freedom, empowerment and mobility.

It's featherweight design, strength and adjustability make it suitable for growing children as well as adults.

Supplied with a hook-style white dome tip and a 9.5-inch adjustable foam grip, so you can be sure your cane is the right length for you. (Cane size ranges listed below – please note that all dimensions include the dome tip.)

The new dome tip design is inspired by the classic marshmallow tip and the sleek action of a rolling ball tip. Replacement dome tips are available in a pack of six mixed colours, or individually in white, pink, blue or yellow.

Inspired by the design of the upcurved tip of a ski, the dome tip combines the best of the roller ball and the marshmallow tip to elevate your cane experience.

The larger radius curve of this re-imagined marshmallow tip combined with the sleek action of a roller ball is designed to reduce cane jab. Made from UHMWPE (Ultra-High Molecular Weight Polyethylene), a premium engineering plastic that offers exceptional durability, low friction, and outstanding impact resistance.

Designed for use with Awarewolf Gear's Urban Xplorer cane, but compatible with other mobility canes, you can buy a pack of six tips in mixed colours (red, orange, yellow, pink, blue, and white) or single tips in one of four colours: white, blue, pink or yellow.

# RNIB Accord – more accessible than ever

**The RNIB Accord USB player is back, even more accessible than before.**

This combination USB player and Bluetooth speaker is our most advanced audio device and designed specifically for blind and partially sighted users, with easy-to-use tactile controls, easy-to-locate ports, bookmarking features, and chapter skipping function.

It now has two high-quality diaphragm speakers and you can also pair two Accords via Bluetooth for a multi-speaker experience.

The stylish black case still has high contrast tactile controls, but power and volume are now controlled by a 1 × 1cm knob which clicks to indicate power on and off. Volume increases and decreases as you turn the dial.

Two large, tactile plus and minus buttons on the front of the Accord allow you to skip forwards and backwards through tracks. Each triangular button

Available  
in early  
October

has a white, tactile ridge to make them easy to locate and identify through touch.

The RNIB Accord's play/pause button and all ports are on top of the device for ease of use. The white play/pause button is raised about 1.5mm, making it easy to feel. All controls and ports are outlined in white to contrast with the black case.

A NaviLens sticker on the back of the Accord means you can access the product instructions easily – simply scan the sticker with the free NaviLens app to hear the instructions. (Large print instructions are also supplied as standard.)

The RNIB Accord still gives voice prompts in a clear, natural, English male voice to indicate battery, Bluetooth, charging and software update status. It will also speak when headphones, a USB stick, or an SD card are connected/disconnected and when a control button is used, (for example, "power on", "skip track forwards"). Changes in volume are not announced.

Bookmarking of your last position in the book you're currently reading is automatic when the player is paused or stopped. When the USB stick is removed and reinserted the player will automatically start playing at the point you left off. Up to 10 bookmarks stored. ROM internal memory ensures books play tracks in order.
